

Truck Tipper 2.5 and 5 Tonne Auto

REQUIRED SAFETY EQUIPMENT

Hand Protection

Foot Protection

SAFETY FIRST

If you are collecting the equipment for someone else please make sure this sheet is given to the equipment user to read. This sheet should be given to the site supervisor if the equipment is being hired for commercial use so that the information is available to all users.

Before starting any job, be sure to spend a few minutes planning and understanding the hazards and risks of the job. Do this by:

- Thinking about and observing your surroundings
- Running through the steps of the job in your mind
- Identifying the hazards, how you can get hurt and how you'll prevent it
- Knowing what plant and equipment you need
- Only starting when you can do the job safely
- Ensuring you are trained or experienced for the task
- Communicating with everyone involved

Points to consider when planning a task.

Can you:

- Come into contact with an energy source (e.g. heat, electricity, substance under pressure) or hazardous materials
- Be struck-by or against anything?
- Be caught-in, on or between anything?
- Slip, trip or fall on the same or too a lower level
- Strain or sprain a muscle?
- Cause damage to plant equipment or property?
- Spill or pollute something?

PLEASE READ BEFORE LEAVING

- All Vehicles must be returned with a full tank of fuel
- All drivers must be 21 years and over with a Full Class 1 Drivers Licence (must be supplied on collection)
- All new damage while on hire is customer's expense, including tyres and windscreen

Tipper DPF Information

Continue driving but DO NOT TURN OFF ENGINE until the light disappears

Park safely, keep the engine running, shift gear position to neutral and engage park break. Then, Press DPF activation switch (shown in the picture below). WAIT for the "Light to Disappear"

Operating the Tipper Tray - Up

1. Press PTO button (below Radio controls), should hear a beeping sound when engaged
2. Press button on top of the handle and pull the handle back, one movement
3. Tray should be elevating
4. The tail gate locks will automatically open when tray is elevated high enough

Operating the Tipper Tray - Down

1. Push handle forward
2. Tray will start to come down
3. Tray will lock into place
4. Push PTO button off when tray is locked in place. Beeping will stop
5. DO NOT drive the truck until the tray is locked in place

Park safely and Contact Hirepool Vehicles Office
